

# MOUNTING

## Neets Control - UniForm

### Designed for wall-mounting

Neets Control - UniForm is a compact and elegant keypad suitable for wall-mounting to act as a visible, easy-to-find remote.

### INSTALLATION WITH EU BACK BOX

The EU backbox is available for brick and drywall, and mounting is easily done in the middle holes of the magnetic bracket.

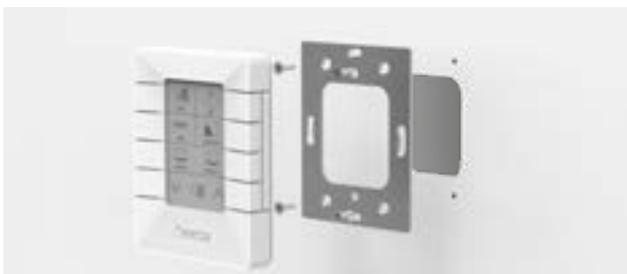

### INSTALLATION WITH FUGA AIR, DK

Fuga Air is for Danish installs, use the top and bottom screw holes in the magnetic bracket, models for brick and dry-wall are available.

### INSTALLATION WITHOUT BACK BOX

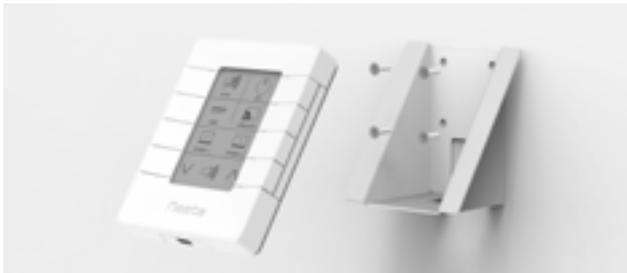

It is possible to just cut a hole in the wall and mount the magnetic bracket with plugs and screws in the 4 corner holes, for mounting without a backbox.

\*Magnetic bracket is included in the Neets Control - UniForm product. Back boxes and wall bracket are not included!

# MOUNTING

## Neets Control - UniForm

### INSTALLATION WITH UNIFORM WALL BRACKET

Mounting on the wall is easy with the on-wall bracket where you can use trunking systems to route the cables.

Item number: 309-1005

### INSTALLATION WITH UNIFORM RETROFIT PLATE

The retrofit plate is designed for installation of the Neets Control - UniForm in already existing installations, where a UK, US or one of the bigger EU back boxes has been used.

Item number: 309-1000
